CTO(MERN Stack)
Sarvh
01/2022 - Present   *Ghaziabad , India*
Sarah-An online social-ecommerce platform that will serve as a dedicated platform for the local sellers to sell their products to a diverse user base.

Achievements/Tasks
- I built a lot of reusable web components with ReactJS which were device responsive and made sure its performance was at best.
- Designing user APIs all using (Express and Node Js).
- Costs of maintaining a server at heroku along with MongoDB were pretty high and scalability was not cheap too especially for a startup like Sarvh.
- As a CTO along with the team planned and Integrated DynamoDB, EC2 and S3 to incur minimum cost to read and write.

Visit : https://sarvh.herokuapp.com

SKILLS

HTML   CSS   JavaScript   ReactJS
NodeJS   ExpressJS   NextJS   MongoDB
DynamoDB   GoLang   Kubernetes   C/C++
